

WRAP Materials Pricing Report

SIGN UP FOR FREE MATERIALS PRICES

The Materials Pricing Report (MPR) is a free subscription service for buyers and sellers of recyclable materials. MRW produces the report for WRAP. To receive the report free of charge direct to your inbox, visit MRW.co.uk/WRAPprices. Subscribers must be willing to provide regular pricing information, which will be treated in the strictest of confidence and used on an unattributed basis.

Since the last issue of MRW, **news & pams** prices rose by £5 per tonne to around £75 per tonne. **Domestic mixed papers** fell by £5 per tonne to £55 per tonne. **OCC domestic and export** both increased by £5 per tonne to £75 per tonne and £85 per tonne, respectively.

OIN went up by £5 per tonne to £90 per tonne and **best white no.2** increased by £10 per tonne to £225 per tonne. Glass prices remained stable except for **mixed glass**, which rose from £0 per tonne to £15 per tonne.

Clear PET prices fell by £5 per tonne to

£140 per tonne and **LDPE 98:2** fell £30 per tonne to £240 per tonne. All other recovered plastic prices remained stable.

Aluminium cans fell by £100 to £675 per tonne while steel and mixed cans remain unchanged.

Textiles prices were unchanged.

PRICE TRENDS INFORMATION

For materials specifications and more information, visit www.wrap.org.uk/mpr. MRW spoke to 32 businesses on 14 August-4 September to produce this report. * These are MRW-produced prices and are not part of the WRAP MPR. However, the same methodology was used. † These prices contain contracted and spot prices. **PLEASE NOTE:** Quoted price ranges are typical prices for a full HGV load. Paper and plastics prices are for collected (ex-works) material, while those for glass and cans are for material delivered to a UK reprocessor or port. Paper and glass prices typically apply to all loads collected/delivered over a fixed period, for example one month, while plastics and cans prices are typically agreed on a load-by-load basis.
